CONTACTS IN KYRENIA

Your Cyprus Phone

We supply a local phone the PIN is 4567 and the number is 0533-867-6278

. You will find loads of useful phone numbers, taxis, restaurants etc. Topping up is easy.

Please don't leave the phone empty and leave one new 10YTL (£4) card for the next customer.

Your friends and family can call you on this phone from the UK at 9p per minute by dialling "Dialaround" Dial 0871 343 4141 wait for the message and then dial the full international number 009-0533-867-6278. You can do this from a landline or a mobile.

OUR AGENT IN CYPRUS

Sadik Tuccarolow (pronounced Two Jar O Low) looks after the villa and will help to sort out any problems. He is a local business man with good English and he is very helpful. Also good contact for car hire and airport transfer.

His phone number in Cyprus is 0542-851-1101. If you are calling from UK or using your home mobile in Cyprus dial 009-0542-851-1101

Sadik email serene@analiz.net

Office # 009-0393-281-5287

If no reply and urgent phone Lyn on 0044 7771 537 987 if you can't get through to Sadik first.

Trish organises cleaning etc., 05428580206

KEYS

When inside the apartment, lock the front door. This means you'll have to use the keys to lock-up when you leave the apartment and so will be less likely to walk out without taking the keys.

There is a key safe just where you park, marked 6 on the wall and with our name. **Please** spin the tumblers on the key safe each time you use it so no-one else can see the code. It is a good idea to keep your spare set in the key safe.

If you lock yourself out Sadik has a spare key but will charge to come to let you in.

AIR CONDITIONER

You can open all the windows and there is usually a gentle breeze in the Penthouse so Air Con is usually not needed. It is much nicer to have the patio doors open as this opens up the room onto the terrace.

Electricity is expensive on Cyprus and the air conditioning is a heavy user.

The apartment cools down in 5-10 minutes once the air-con is switched on; there is no need to leave it running all day when you are out, as this only contributes to global warming and our electric bill !! When too many people are using air-con the power stations can't cope and there'll be a power cut sometimes lasting a few hours.

Please keep all the doors and windows firmly closed when using the air-con, otherwise you will be cooling all of Cyprus, but not the apartment.

ON-OFF AND CARE FOR THE UNITS

The air-con should be switched on and off using the hand controls and **not at the power switch** on the wall. Leave the power on at the wall and control the units by remote. Switching off at the wall while the unit is in operation will cause damage

AIR CON SETTINGS

COOLING Press MODE to bring snowflake symbol onto screen on unit and remote control for cooling, then adjust fan and temperature to suit.

HEATING In winter set MODE to sun symbol for heat

If you prefer fresh air, turn the air-con off and open all the windows wide. When opening the bedroom window and shutters you need to use the hook/catch on the shutters to secure them to the wall.

The ceiling fan in the living room has 3 speeds and helps keep the room cool.

Bedroom night temperature—set to 26/27 degrees on the control

If you pull the lining curtains on the patio window before bed, they reflect a lot of morning sun and keep the room cooler for the morning.

KITCHEN

KITCHEN ELECTRICAL GOODS

Instruction booklets are in the drawer under the oven.

KITCHEN WORKTOPS

Do not cut directly on the worktops. Please use the chopping boards provided.

Hot saucepans and pans must be placed onto the wire trivets (behind hob) or on the tempered glass plate, and not set directly on the worktops. There are also straw place mats to protect surfaces.

Oven

To use oven set knob to this symbol

and then set the temperature.

To use the grill set knob to diagram

Power cuts unset the oven, to reset hold down buttons 1 & 2, then press 6

Extractor Fan

This is above the hob. Pull the stainless steel front of the fan out to operate. A light will go on. There are 3 speeds.

Gas Hob

The gas hob is very powerful, take care and watch your pots as they will burn very easily.

Washing Machine

Use programme G or M for 40 degrees wash / quick spin.

Set to G/M and press ON. Turn off after use.

There's a clothes horse for drying the clothes.

Dishwasher

Use on "Economy" To set, PRESS the big round button, then the ON/OFF button.

Then press START. Don't forget to switch off after use.

Fridge

Set to 3 or 4. Any higher and things start to freeze.

Once the fridge door has been opened and closed, the door won't open again for a couple of minutes.

WATER

The water pump switch in the hall needs to be on at all times. The pump is pressure controlled and will come on to meet demand.

Water is scarce in Cyprus and very costly. Please do not waste it. After washing in the washing-up bowl, throw this water round the plants (except if there's bleach in it.) If there are a lot of people staying in the apartment our tank 6 (in car parking area) may run low of water. Check the tank regularly and if low call Sadik or phone 0542 856 2004 to get a delivery. It costs about 20/30 lire. You need to stay in the apartment or by the pool till the tanker comes.

Hot Water

There are solar panels on the roof that heat lots of hot water. You have to let the water run for quite a while before the hot water comes through. (If you put a basin below the shower this water can be put round the plants)

If it's been cloudy all day you may need to use the water heater. The immersion heater switch is in the hall

Tap Water

The local water is very heavy with chemicals; it is safe and fine for cooking but not nice to drink, even for tea or coffee.

Water Dispenser

There is chilled drinking water in a tall kitchen cupboard. The dispenser needs to be switched on at the electrical socket.

We use bottled water, even for tea/coffee. There is a spare full bottle in the cupboard to the left of the oven. Order a new bottle right away.

Ordering Bottled Water For Dispenser

Phone "EV SU" 03928150186 or 03928150611 or 0392815788 Or phone Sadik and let him order it.

EV SU understand a little English and you should order one 17 litre bottle. You need to give the address. They take the empty bottle and you pay about £1. 20. PLEASE TIP as they carry it all the way up for you. When you put this spare bottle onto the dispenser you need to order a new bottle right away as it can take a day to arrive. You either need to stay around until it's delivered or leave the empty bottle outside the apartment on the landing with the money below it.

We keep a couple of empty litre bottles to fill from the dispenser, so we can take these to the pool, or with us in the car.

TV

Local TV is all in Turkish. The TV is for use with DVD films (which are cheap to rent) or with play-station /X-box. We hope to have a digi-box fitted which will give cartoons, news films and even Eastenders !!

BATHROOM

The bathroom light blows if the light is left on for long periods. Please switch the light out when the bathroom is not in use. There should be a replacement bulb in the tall cupboards.

PLUMBING

The sewerage system cannot cope with toilet paper and will choke on sanitary products and baby nappies.

PLEASE, PLEASE use the bins supplied in each toilet for used toilet paper. Or better still use the inbuilt bidet/douche, (tap to lower right hand side of cistern) which sprays clean water from the edge of the seat onto your nether regions (OK I'll say it "your bum") Please tie up the bag with your toilet rubbish and don't leave it for Trish.

OUTDOORS

Sofas On The Terrace

Please look after these for us. They are not to be suited to sunbathing as suncream and sweat will ruin the soft covers. If you have just come up from the pool please don't sit on any of the soft furnishings with wet bathing gear. Please use the deck chairs or outdoor dining chairs, with cushions lifted.

There are two sunbeds on the Terrace.

Care for Outdoor Cushions In Spring and Autumn it can rain and this can be torrential. If it threatens to rain please bring in the soft cushions from the settees and put them behind the settee in the living room. The dining chair cushions can be set on the ledge below the dining table. This will mean that you have dry sofas to sit on after the rain has passed. If the forecast is rain (see weekly newspaper, out every Saturday for 7 day weather) or if the sky looks dark bring the cushions in before you go out.

STORE ROOM

Our store is number 6, at ground level near the parking space.

Sun Beds & Umbrella

There are 4 sun-beds, cushions, a table and an umbrella in the store. The name Fawcett is written on the beds. The beds can be left out during your stay, but we like the cushions put back into the store after each use. There are also 2 deck chairs for use on the terrace or poolside.

Suitcase Storage

You can put these into the downstairs store or under the beds, lift handle at end of bed to access storage.

CAR PARKING AT THE APARTMENT

Our car parking space is under the apartment at the rear the 3rd along from the right by the water tank numbered 6. Our space is marked number 6 and FAWCETT. The key-safe is here.

Entrance Hall And Stairwell Lights

There's a timed switch on each landing. Press light switch on each floor or the light will go out and you'll be left in the dark!!

PHONING

We have left a local phone in the apartment for your use. PIN 4567 It's "pay as you go." It has taxis, restaurants etc., in it (though these do change) You can buy credit at most big supermarkets and the staff will update the credits for you. (see below) When you depart please leave it with approx the same amount of credit there was when you started using it, charge it and switch it off. Thanks!

If you want to phone a local number put 0392 before the number. If using your UK mobile put 009392 before the local number.

You can use your home mobile phone in N. Cyprus but it is very expensive.

Local Phone Cards

If you need to make local calls it is much cheaper to buy a Turkcell sim card (about £10). It works well to get two so you can keep in contact. As most modern phones are locked by the service provider you will need to buy your first Turkcell simcard from a local phone shop so they can unlock your phone. (About £5, but negotiate price first)

You can buy credit from any Turkcell kiosk in supermarkets or shops on the main street, the salesperson will usually help to put the credit into your phone.

If you are putting the credit in yourself from the "Yesil Kart"

- Dial 6060 and wait for the English instructions.
- Press 1 (you will be told to put in your credit number which is about 13 digits under the scratch strip)
- Put in this credit number followed by # sign.
- Operator will repeat your number and tells you how much credit you have.

The guide book on the bookshelves gives a lot of phone numbers of restaurants, airport information etc.,

NEWSPAPERS

You can buy the British and American newspapers in the supermarkets. Cyprus Times and Cyprus Today are two cheap local papers with world news, local news, the weather forecast, events, restaurants and their phone numbers

TAXIS

Taxis are quite cheap and you can pick them up in town -beside the Dome Hotel and near The Colony Hotel.

If you're getting a taxi home remember to take your address. All the taxi drivers know the Yeni Limani (Tourism Harbour) or New Harbour and the Golden Girls Night Club as landmarks!

You will find some taxi cards on the kitchen shelves and there'll be some numbers in our local phone under tx or taxi.

If you're getting a taxi home remember to take your address. All the taxi drivers know

the Altinkaya Hotel which you pass, the Bellapais Road and some will know the Boaters Bar " previously Loch Inn bar" or Akkunt supermarket near the villa. Once you get to the Altinkaya Hotel you can show them the way. Taxis are in our phone under tx and taxi !

Some taxi numbers :

Acapulco (called Tami) 05338449090 They do Sadik's pick-up's from Larnaca/Paphos airports so they know the villa.

Sabach 05338460200 tell him you are at Lyn's house, number 14 near the Boaters Bar, or Loch Inn or Akkunt supermarket.

Rashid 0542884, tell him you are at Lyn's house, number 14 near the Boaters Bar, or Loch Inn or Akkunt supermarket.

CAR HIRE

There are loads of firms to hire from.

We use Sadik (owner's name) "Dollar" (009) 05428511101. They're not great cars, but cheap. You should try to bargain/deal to get the best price.

Driving

The Cypriots drive on the same side of the road as in U.K.

Watch for motor-cyclists as they overtake on both sides!

When driving round the ring-road there are traffic lights at the crossroads to Bellapais (Beylerbeyi) which often are out of order. Ease out and check the other 3 directions before crossing.

HEALTH

The hospital is on the way into Kyrenia from our apartment , going from the roundabout with the large statues and past the "Pia Bella Hotel" Go in the first door of the hospital. A&E is the first door on the left. There's no sign or waiting list, everyone charges in together. It all seems very disorganised but health care is very good.

There are private hospitals also. We use Dr. Alper Baydar and he's very good. Get a taxi to road "Isil Sokak," Girne Tip Merkezi. The doctor works in the hospital during the day and sees private patients after 5pm. There's a private hospital leaflet on the kitchen shelves which you could show to the taxi driver.

To make an appointment :-phone 0392 815 1791 or

0392 815 3282 or 0392 815 3524.

You must pay for the treatment before leaving the surgery. Get a receipt so you can claim the money back from your holiday insurance.

There's a good pharmacy, The Medicine Box, on the road between the roundabout with the large statues to the local hospital. Also make sure you get a receipt for insurance. They speak good English.

BEACHES

On our side of town (east) it's a short drive to the East to:-

- Oscars Hotel, East 500 metres away and is good for kids, they allow you to use the facilities so long as you are using the snack bar or café.
- Lara beach 3 miles away---5 lire—swim, snorkle, umbrellas and café
- Acapulco Beach Club and Resort Hotel—6 miles drive. Aqua park, huge pool, beach, 4 restaurants etc., 20 lire per car
- Vogue—beach, pool and café---10 lire
- Turtle beach
- Happy Valley

On the other side of town (West):-

- Camelot
- Escape beach is beside the huge cannon monument. You can arrange to go deep sea diving here. Loads of water sports.
- Deniz Kizi is by the hotel of the same name
- Lots more

Most hotels let you use their beach and facilities etc., if you buy lunch or drinks from them.

BOOZE

The local beer "Efes" is good.

The local spirits, like gin, are very good and there are also the well known brands eg.,Gordon's gin and Schweppes tonic, in the bigger supermarkets.

Local wines are reasonable:- Angorra (red or white), Nevsah white, Cankaya, Yakut Kavaklidere red, Villa Doluca-red or white.

Raki is the Turkish version of Pernod or Ouso. You can drink this to forget, I did, but I can't remember what I wanted to forget.

SUPERMARKETS

There is a small shop at the top of the road or go towards the Statues Roundabout and the closest big supermarket is LEMAR. Go to the top of the road (from the new harbour) to the roundabout with the freedom statues and turn left towards Catalkoy (main road east).

LEMAR is on the right. It's probably the best. See sketched map.

There's also ASTRO on the West side of town which is good for meat including pork, and there's a good TEMPO further West in Karoglanglu (on the right)a few miles past ASTRO.

BOAT TRIPS

You can book these at the old harbour.

This is a great way to keep cool, see the coastline, swim and snorkel off the boat (if you want), have a good lunch, meet people etc., Trips leave at 10:30am and return about 5:00pm.

Get there there early to grab the best sunbeds !!

Info cards are in the house. We've had a day trips on the "Aphrodite" gullet. Musa, the skipper speaks very good English. Musa can arrange diving or fishing.

Also Blue Bird is good, on 05428515522.

Sabrina (son is Kemil) is good too

We had lunch on board all and the food was good. Wine isn't so good, but can ask when you book for a specific wine to be on board.

CURRENCY

Bureaux de Change Shops, they are only slightly dearer than the banks and are open 7 days up to 7 or 9pm with minimal wait. The best rates are from a little shop on the left hand side of the main street about 150yds from Ramadan (Pigeon Statues) Square.
