CONTACTS IN KYRENIA

OUR AGENT IN CYPRUS

Muza is your main contact and will give advice and help to sort out any problems 0533 860 2046 from a local phone or 0090 533 860 2046 from your own phone. Muza is the son in law of Sadik Tuccaroglu (pronounced Two Jar O Low) who looks after the penthouse. Sadik's phone number in Cyprus is 0542-851-1101. If you are calling from UK or using your home mobile in Cyprus dial 009-0542-851-1101

They are local business men with good English and are both very helpful.

Also good contacts for taxis, car hire and airport transfer.

Email sadik@sadiktuccaroglu.com & muzaffer@sadiktuccaroglu.com

Office # 009-0393-281-5287

If no reply from Sadik or Muzaffer and urgent phone Lyn on 0044 7771 537 987 if you can't get through to them first.

YOUR CYPRUS PHONE

Nowadays most mobile companies have built in or extra roaming packages. Our Vodafone package is £8 per month for 1000 minutes, unlimited text and 5GB of data and this is free to roam in Europe and Turkey. Check with your provider for conditions.

Your friends and family can call you on this phone from the UK at 9p per minute by dialling "Dialaround" Dial 0871 343 4141 wait for the message "welcome to dial around" then dial the full international number 0090 533 877 1418. You can do this from a UK landline or a mobile.

WiFi & INTERNET

We have WiFi. Look for MultiMax-Kyrenia2 the password is kyrenia1234.

Most bars and restaurants have WiFi, the Harbour and main town square have open access.

KEYS

We supply two sets of keys. When inside the apartment, lock the front door. This means you'll have to use the keys to lock-up when you leave the apartment and so will be less likely to walk out without taking the keys.

There is a key safe just where you park, marked 6 on the wall and with our name. I will send you the code before your arrival. **Please** spin the tumblers on the key safe each time you use it so no-one else can see the code. It is a good idea to keep your spare set in the key safe.

If you lock yourself out Muza has a spare key but will charge to come to let you in.

AIR CONDITIONER

Electricity is horrendously expensive in Cyprus and the air conditioning is a heavy user. **Please do not leave the aircon on when you are out, please do not use it when windows are open.**

We allow for normal usage which is more than enough for even in the hottest months, but we do charge extra if the use is excessive. If you use the aircon when you are inside and with the windows closed you will not go over the limit.

If you leave it on all day when you are out or with the windows open you will go over the limit,

You can open all the windows and there is usually a gentle breeze in the Penthouse so Air Con is usually not needed. It is much nicer to have the patio doors open as this opens up the living room and terrace into one big living area with sun, partial shade and full shade.

The apartment cools down in 5-10 minutes once the air-con is switched on; there is no need to leave it running all day when you are out, as this only contributes to global warming and our electric bill !! When too many people are using air-con the power stations can't cope and there'll be a power cut sometimes lasting a few hours.

Please keep all the doors and windows firmly closed when using the air-con, otherwise you will be cooling all of Cyprus, but not the apartment.

ON-OFF AND CARE FOR THE UNITS

First press the timer units on the wall which give 2, 4, or 6 hours on. The air-con should then be switched on and off using the hand controls after pressing the timer unit on the wall. When the timer is on at the wall you control the units by remote.

The air-con should be switched on and off using the hand controls and **not at the power switch** on the wall. Leave the power on at the wall and control the units by remote. Switching off at the wall while the unit is in operation will cause damage

AIR CON SETTINGS

COOLING Press MODE to bring snowflake symbol onto screen on unit and remote control for cooling, then adjust fan and temperature to suit.

HEATING In winter set MODE to sun symbol for heat

If you prefer fresh air, turn the air-con off and open all the windows wide. When opening the bedroom window and shutters you need to use the hook/catch on the shutters to secure them to the wall.

The ceiling fan in the living room has 3 speeds and helps keep the room cool.

Bedroom night temperature—set to 26/27 degrees on the control, if you set it any cooler you will never acclimatise to the outside temperature and will always feel uncomfortable outdoors.

If you close the lining curtains on the patio window before bed, they reflect a lot of morning sun and keep the room cooler for the morning.

KITCHEN

KITCHEN WORKTOPS

Do not cut directly on the worktops. Please use the chopping boards provided.

Hot saucepans and pans must be placed onto the wire trivets (behind hob) or on the tempered glass plate, and not set directly on the worktops. There are also straw place mats to protect surfaces.

OVEN

To use oven set knob to this symbol and then set the temperature.

To use the grill set knob to diagram

Power cuts unset the oven, to reset hold down buttons 1 & 2, then press 6

EXTRACTOR FAN

This is above the hob. Pull the stainless steel front of the fan out to operate. A light will go on. There are 3 speeds.

GAS HOB

The gas hob is very powerful, take care and watch your pots as they will burn very easily.

WASHING MACHINE

Use programme G or M for 40 degrees wash / quick spin.

Set to G/M and press ON. Turn off after use.

There's a clothes horse for drying the clothes.

DISHWASHER

Use on "Economy" To set, PRESS the big round button, then the ON/OFF button.

Then press START. Don't forget to switch off after use.

FRIDGE

Set to 3 or 4. Any higher and things start to freeze.

Once the fridge door has been opened and closed, the door won't open again for a couple of minutes.

WATER

The water pump switch in the hall needs to be on at all times. The pump is pressure controlled and will come on to meet demand.

Water is scarce in Cyprus and very costly. Please do not waste it. After washing in the washing-up bowl, throw this water round the plants.

HOT WATER

There are solar panels on the roof that heat lots of hot water. You have to let the water run for a while before the hot water comes through. (If you put a basin below the shower this water can be put round the plants)

If it's been cloudy all day you may need to use the water heater. The immersion heater switch is in the hall

TAP WATER

The local water is very heavy with chemicals; it is safe and fine for cooking but not nice to drink, even for tea or coffee.

DRINKING WATER

We use bottled water, even for tea/coffee. We supply water in your welcome pack.

TV

Our WiFi is good so you can stream home TV through your laptop or tablet. We supply an HDMI cable for laptops but you need to bring a compatible cable for your tablet to HDMI. Select input on TV control and chose the HDMI slot number to which you have connected your laptop.

You will need to use my overseas VPN address to access home channels. We use www.tvonholiday.co.uk Download the App and then log in as lynfawcett@yahoo.co.uk contact me for the current password.

There is an Amazon Firestick TV which streams home material. Set the TV input to HDMI 4, click on the home button on the amazon control select My Apps. If you do not have one you may use my account for Netflix which should be logged on at the Villa, if not my user is lynf@wcett.com contact me for the current password. There are five family users on the account, please use Dixie's account, she is our three year old Cockapoo and tells me she has no interest in TV.

You can use your own Netflix account but please do reset the Firestick to the lynf@wcett.com account

We have a DVD player, there are a few movies under the TV and you can buy copies of the latest films for £1 - £1.50.

PLUMBING

The sewerage system cannot cope with toilet paper and will choke on sanitary products and baby nappies.

PLEASE, PLEASE use the bin supplied in the toilet for used toilet paper. Or better still use the inbuilt bidet/douche, (tap to lower right hand side of cistern) which sprays clean water from the rear of the seat onto your nether regions (OK I'll say it "your bum") and is so much more hygienic than paper. Please tie up the bag with your toilet rubbish.

WEATHER

You can check the weather forecast by ringing 166 on the Cyprus phone and follow instructions when told---
press 9 for English

press 1 for weather that day, or 2 for sea conditions, or 3 for three day forecast.

SOFAS ON THE TERRACE

Please look after these for us.

They are not to be suited to sunbathing as suncream and sweat will ruin the soft covers. If you have just come up from the pool please don't sit on any of the soft furnishings with wet bathing gear. Please use the sunbeds or outdoor dining chairs, with cushions lifted.

There are two sunbeds on the Terrace.

Care for Outdoor Cushions In Spring and Autumn it can rain and this can be torrential but short lasting. If it threatens to rain please fit and tie on the green waterproof covers. Please do this at night in Spring and Autumn as there can be a heavy dew.

If it looks like it may rain a lot please bring the soft cushions from the settees and put them behind the settee in the living room. The dining chair cushions can be set on the ledge below the dining table. This will mean that you have dry sofas to sit on after the rain has passed. If the forecast is rain (See forecast info in Weather Section or see weekly newspaper, out every Saturday for 7 day weather) or if the sky looks dark bring the cushions in before you go out.

SWIMMING POOL

The 12x8m pool is shared but there is rarely anyone else using the pool or pool deck as most of the other apartments are owned by local people who do not normally use the pool.

SUN BEDS & UMBRELLA

There are 4 sun-beds, cushions, a table and an umbrella in the store. The name Fawcett is written on the beds. The beds can be left out during your stay. There is also a deck chair for use on the terrace or poolside.

STORE ROOM

Our store is number 6, at ground level near the parking space.

SUITCASE STORAGE

You can put these into the downstairs store or under the beds, lift handle at end of bed to access storage.

CAR PARKING AT THE APARTMENT

Our car parking space is under the apartment at the rear the 3rd along from the right by the water tank numbered 6. Our space is marked number 6 and FAWCETT. The key-safe is here.

ENTRANCE HALL AND STAIRWELL LIGHTS

There's a timed switch on each landing. Press light switch on each floor or the light will go out and you'll be left in the dark!!

When you go in or out please close the outside door

PHONING

Nowadays most mobile companies have built in or extra roaming packages. Our Vodafone package is £8 per month for 1000 minutes, unlimited text and 5GB of data and this is free to roam in Europe and Turkey. Check with your provider for conditions.

If you want to phone a local number put 0392 before the number. If using your UK mobile put 009392 before the local number.

You can use your home mobile phone in N. Cyprus but it can be expensive. Check with your provider before you come as it can be cheaper to pre-purchase a holiday package. We use Vodafone and have bought their international package which means we can use all our home calls and data at no extra charge.

NEWSPAPERS

You can buy the British and American newspapers in the supermarkets. Cyprus Times and Cyprus Today are two cheap local papers with world news, local news, the weather forecast, events, restaurants and their phone numbers

TAXIS

Taxis are quite cheap and you can pick them up in town -beside the Dome Hotel and near The Colony Hotel.

If you're getting a taxi home remember to take your address. All the taxi drivers know the Yeni Limani (Tourism Harbour) or New Harbour and the Golden Girls Night Club as land-marks!

You will find some taxi cards on the kitchen shelves and there'll be some numbers in our local phone under tx or taxi.

If you're getting a taxi home remember to take your address. Taxis are in our phone under tx and taxi !

CAR HIRE

DRIVING

The Cypriots drive on the same side of the road as in U.K.
Watch for motor-cyclists as they overtake on both sides!

When driving round the ring-road there are traffic lights at the crossroads to Bellapais (Beylerbeyi) which often are out of order. Ease out and check the other 3 directions before crossing.

HEALTH

The hospital is on the way into Kyrenia from our apartment , going from the roundabout with the large statues and past the “Pia Bella Hotel” Go in the first door of the hospital. A&E is the first door on the left. There’s no sign or waiting list, everyone charges in together. It all seems very disorganised but health care is very good.

PRIVATE HOSPITALS

These are inexpensive. We use Dr. Alper Baydar and he’s very good. Get a taxi to road “Isil Sokak,” Girne Tip Merkezi. The doctor works in the hospital during the day and sees private patients after 5pm. There’s a private hospital leaflet on the kitchen shelves which you could show to the taxi driver.

To make an appointment :-phone 0392 815 1791 or
0392 815 3282 or 0392 815 3524
Sadik can advise.

You must pay for the treatment before leaving the surgery. Get a receipt so you can claim the money back from your holiday insurance.

DENTIST

Dr Seda has a very modern practice and is an excellent dentist. Her office is just past the hospital heading into town on the right hand side. Make sure you get a receipt for insurance.
03928150015

PHARMACY

There’s a good pharmacy, on the road opposite Lemar supermarket. Also make sure you get a receipt for insurance. You can get most UK prescription only drugs in Cyprus without needing a prescription. They speak good English.

BEACHES

There are some lovely beaches on our North Coast, some are controlled by hotels and beach restaurants which charge a fee of 10-50YTL or ask that you use their bar and eat lunch.

On our side of town (east) it's a short drive to the East on the Road to Esentepe to:-

- Lords Palace on the road down to the New Harbour, Yeni Limani, 500 metres from the Statues/Freedom Roundabout. This is a very modern resort complex with lovely restaurants bars and swimming areas. There is a daily cost which includes food. Very convenient and well worth a visit.
- Oscars Hotel, 500 metres from the Statues/Freedom Roundabout. It is good for kids and they allow you to use the facilities so long as you are using the snack bar or café.
- Cratos Hotel has a well-made artificial and natural beach and lagoon, as well as largest swimming pool I have ever seen. With beach bars and restaurants, it also has a spa facility, with Turkish steam bath, sauna, and a very professional massage of various types. Well worth a day's visit. Entrance fee charged per person.
- Shayna Beach, 3.5 miles away has a lovely setting, excellent seafood, nice deck and very pretty little beach.
- Acapulco Beach Club and Resort Hotel is 6 miles drive. Has an aqua Park, huge pool, beach, four restaurants and more.
- Vogue — beach, pool and café
- Turtle beach is free and 10 miles drive
- Kaplica, Free. 30 miles away, MUST try the natural "swimming pools" in rocks. Very good fish restaurant too for lunch at very reasonable prices
- Altinkum (Golden Sands). Just before you get to the tip of the panhandle. Reckoned by many to be the best beach in the Mediterranean if not the world. Aphrodite came out of the sea here, she was no old goat's toe.

On the other side, west of town:-

- Kervansaray - a free public beach, reputed for its sunsets.
- Escape beach is beside the huge cannon monument. Loads of water sports. You can arrange to go deep sea diving here.
- Deniz Kizi is by the hotel of the same name. This is a well-kept horse-shoe shaped Cypriot beach with very reasonably priced quality catering. It's my favourite.
- Camelot

Many hotels let you use their beach and facilities etc., if you buy lunch or drinks from them.

BOOZE

The local beer "Efes" is good.

The local spirits, like gin, are very good and there are also the well known brands eg.,Gordon's gin and Schweppes tonic, in the bigger supermarkets.

Local wines are very palatable:- Angorra (red or white), Nevsah white, Cankaya, Yakut Kavaklidere red, Villa Doluca-red, rose or white. Our favourite rose is Lal.

DON'T buy any wine over two to three years old for red and on to two years old for white. They are stored in high temperatures and go off instead of maturing.

Raki is the Turkish version of Pernod or Ouzo. You can drink this to forget, I did, but I can't remember what I wanted to forget.

SUPERMARKETS

There is a small shop at the top of the our road called AKSTORE they will deliver your purchases which will save you the carry. A small tip is a nice touch.

For more choice go to the closest big supermarket LEMAR. Go to the top of the road (from the new harbour) to the roundabout with the freedom statues and turn left towards Catalkoy (main road east). LEMAR is on the right. It's probably the best all round but Starling on the road to Bellapaise is better for fruit and veg.

The best meat and bread is at Supreme, 5 miles out East towards Essenteppe.

SHOPPING

The main street in Kyrenia runs from Ramedin Cemal Mercadi (Pigeon Square) parallel to the shore with a number of small side streets mainly towards the shore.

Gold and Silver are good value and dependably genuine. Everything else is as you see it. There are great fakes in handbags and watches. The little street with the bicycle repair shop has the best shop for watches beside a good handbag shop. (the Turkish mainland is cheaper)

Don't buy the first thing you see, shop around and bargain for the best price.

BOAT TRIPS

You can book these at the old harbour.

This is a great way to keep cool, see the coastline, swim and snorkel off the boat (if you want), have a good lunch, meet people etc., Trips leave at 10:30am and return about 5:00pm. Get there there early to grab the best sunbeds!!

Musa can arrange diving or fishing.

Also Blue Bird is good, on 05428515522. Sabrina (son is Kemil) is good.

We had lunch on board all and the food was good. Wine isn't so good, but can ask when you book for a specific wine to be on board.

CURRENCY

CASH

Turkish Lira YTL is the Currency in the TRNC (Turkish Republic of Northern Cyprus).

You will not get a good rate buying YTL from your home bank, so only bring a little. We always bring English Sterling notes and can change these at very good rates in the larger shops and Bureaux de Change Shops. The banks are sometimes slightly cheaper but their opening hours are not friendly and the waiting time can be horrendous.

CASH CARDS & CREDIT CARDS

Most Restaurants and larger shops accept cash and credit cards, however your card provider will probably rip you off for the exchange. We use Santander Zero credit cards as there is a great exchange rate and no transaction fee. If you pre-load these there is no fee for a cash dispenser.

CROSSING THE BORDER Directions both ways

(Take care with road signs. All towns/ places have two names-the old Greek name and the Turkish name eg., Kyrenia is called Girne by the Turks, Nicosia is called Lefkosa, Limmasol is Lemesos and Larnaca is Liman.)

KYRENIA TO BORDER CROSSING BY CAR

You will need a private car as the Greeks do not permit rental cars to come from the North. Once you cross you will need to buy additional 3rd party insurance (around £25 for one month). You may also need to update the road tax document, this is free. For insurance and road tax you must have the car's documents.

When driving from Kyrenia towards Nicosia you will come to a roundabout on the outskirts of Nicosia. Turn right at this roundabout and then turn left at the next roundabout, towards Kermia. Turn right at the next small roundabout towards Kermia. This road leads to the border crossing.

(You can also cross the border by foot in Nicosia.)
